the Mac Exchange

Updated on April 19th, 2008 [Printable Copy]

Thanks for stopping by! Tell your friends, family and coworkers you found a place where house calls and service are not a thing of the past. Stop by or call whether you want to upgrade an old system, purchase new or just need a little help. Finding a solution for your problems and issues, while enhancing your Macintosh experience, is our number one goal. For all Mac hardware, software, peripherals or information, this is the place to be.

We have been in the computer business since 1988. We have access to many resources and a vast knowledge pool of technical information that we are glad to share with you. The Mac Exchange is an extension of our computer consulting business called JumpStart Computer Consultants. We started the consulting business in 1994 when the expert need for local Macintosh support, products, after-the-sale support and pre-sales help, were in great demand. And thanks to you, our happy clients, the support and service continues today...
